

OXIDE

We are Oxide, we play Rock.....

OXIDE are an all-male rock band unlike any cover band you have seen before. OXIDE don't class themselves as *classic rock*, *modern rock* or any genre that bands currently describe themselves as. The "*Oxide Law*" is that if a song **ROCKS HARD**, it's in the set! With a repertoire of over 6 hours of music you can guarantee OXIDE will keep you rocking with a great set list tailor made to your event.

Grant (Lead Vocals, Rhythm Guitar) & Jim (Bass Guitar) met in early 2005 playing in a function band which didn't reflect their taste in music. After talking about the rock band they would really like to play in, they left and OXIDE was born.

Jim met Trev (Drums & Percussion) later that year whilst playing in a charity showcase event for Trev's drum school. After hearing about OXIDE, Trev jumped behind the kit and immediately locked in with Jim to form OXIDE's rhythm section which is the driving force behind their sound.

A Lead Guitarist was needed to finish the line up. Steve (Lead Guitar, Backing Vocals) answered the call, and within a couple of weeks rehearsals started up. OXIDE have gone on to play all types of gigs covering the whole U.K. to audiences eager to experience hard rocking songs performed by four exceptional musicians.
